MURU Author and Project Declaration Confirmation

Phase 6 owner review | Internal manuscript, no journal submission

Purpose. Please confirm or correct the author, contribution, funding, competing-interest, ethics, data-rights, and AI-assistance statements before any external circulation. The project records support some statements but do not replace the author's personal confirmation.

1. Author identity and affiliation

Draft statement	Confirm / revise
Author: Aryav Thakur. No affiliation or credential is stated in the manuscript.	☐ Confirm ☐ Revise: _____
Author display name and affiliation for any external version: not supplied.	_____

2. Contributions

Proposed contribution statement	Confirm / revise
Project ownership and computational research leadership	☐ Confirm ☐ Revise: _____
Study protocol, model-development records, and research decisions	☐ Confirm ☐ Revise: _____
Software and analysis contributions	☐ Confirm ☐ Revise: _____
Statistical analysis, figure/table preparation, and manuscript drafting/editing	☐ Confirm ☐ Revise: _____
Any contribution by another person that qualifies for authorship or acknowledgment	☐ None ☐ Add: _____

Contribution claims should reflect actual work, not repository ownership alone. Add names only after confirming each person's role and consent.

3. Funding and acknowledgments

Statement for confirmation	Selection
No project-specific funding or acknowledgments were identified in the accessible MURU records reviewed for Phase 6.	☐ Confirm ☐ Revise / add: _____

4. Competing interests and ethics

Statement for confirmation	Selection
Competing interests: no verified statement is currently on record. Please provide the author's actual declaration.	☐ None ☐ Declare: _____
The described work is a computational analysis of existing chemical/mass-spectrometry data; no human or animal participants were involved.	☐ Confirm ☐ Revise: _____
Institutional approval or exemption status, if applicable: not established by the files reviewed.	☐ Not applicable ☐ Approval / exemption details: _____

5. Data, code, and permissions

Question	Owner response
Confirm project ownership and the intended license for MURU-authored code, documents, figures, and derived outputs.	_____
MSnLib mzML source record is CC BY 4.0; WUR source remains access-restricted in the reviewed records. Confirm whether any WUR-derived records or model artifacts may be shared with a named reviewer.	_____
Confirm that public archive availability is not being treated as blanket permission for derivatives or model weights.	☐ Confirm ☐ Correct: _____

6. AI assistance

Draft disclosure: AI tools assisted with repository inspection, metadata-extraction code, statistical and provenance checks, literature discovery, preparation of figures/tables and drafting/editing of the internal manuscript and review materials. The frozen experimental outcomes were not changed. No journal submission has occurred.

Owner decision	Response
Confirm that this accurately describes assistance and project workflow.	☐ Confirm ☐ Revise: _____
Additional tools, human review, or AI-supported activities to record	_____

7. Final confirmation

I confirm the statements I have checked above for the intended external circulation. Any unchecked or revised declaration must be incorporated before circulation.

Name	Date	Signature / approval record
Aryav Thakur	_____	_____
